12 June 1989

Dear Mr Perks,

I am sorry for the delay in replying to your letter of 31 May - I have had to give priority to arranging matters for the forthcoming Silverstone meeting.

I am not aware of having any photographs of the ex-Lance Macklin DB2, so suspect that Peter Lee may be confusing me with either Brian Joscelyne, the editor of our magazine, who has a tremendous collection of AM photographs, or with Alan Archer who is the Club's archivist.

I will ask both these gentlemen whether they have what you are seeking and will let you know in due course. I must say I had no idea that any DB2 was ever fitted with 18" wheels! One lives and learns.

With kind regards,

Yours sincerely,
