Dear Mr. Lee,

Thank you very much for your letter concerning the DB2 that you have recently bought.

I can understand why you are interested in knowing the car's history, because these vehicles were particularly pleasant to drive, and very few and far between.

I am sorry I cannot remember the number of the car that Lance and I drove in the Daily Express Rally in 1950, but I would suggest that you give him a call on the telephone. He is working for Jack Barclay, and his telephone number is MAYfair 7444.

I hope you are successful in chasing the car's history.

Yours sincerely,

Stirling Moss
