

## BNC 527 - CHASSIS 27082

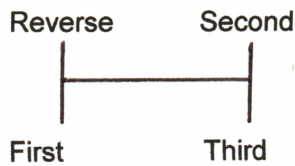

### Starting Instructions:

1. Open bonnet.
2. Connect battery lead.
3. Pull on fuel pump switch (on dashboard)
4. Fuel pump will fill Solex carburetter.
5. Turn ignition key to start engine.
6. Manually choke carburetter if necessary until engine warms up.

Note –when switching off engine , also switch off fuel pump (works independently from ignition switch).

### Gears:

Three speed gearbox (Reverse gear is left and forward)

### Engine:

The engine has just been installed after being rebuilt with a new crankshaft and white metal bearings, piston rings etc. Therefore 'run in' carefully.

The carburetter and magneto ignition timing may require minor adjustment / tuning.
