Drive. Explore. Meet. Create.

Sometimes everything just clicks: great vibes, fascinating cars, an iconic location – and (almost) perfect weather. That pretty much sums up our event at the Vitra Campus.

A huge thanks to all the owners who shared their treasures with us. The line-up was nothing short of spectacular – from quirky rarities like the Bond Bug to the majestic Lagonda, from Italian elegance to British engineering at its best.

vitra x THEDRIVERS.APP – Architecture, Design & Classic Cars

Our takeaway: an event that beautifully connected design, architecture, and car culture – and left us wanting more.

Big thanks to everyone who joined, see you again next year – and to all our partners who made it happen:
