

Passing on to the children of next generation, let them feel and experience the sound of classic car engine.  
By being able to experience, we hope they will be interested in admiring classic cars and respect the "technician" who supported Japan.

We would like to build up and continue this classic car culture with local government,  
Rotary Club and many friends who loves classic cars.

# Route

Route 134 starts in Yokosuka, a road that connects to Miura District of Hayama, Zushi, Kamakura and Oiso.  
It is one of the National Highways in Kanagawa Prefecture where you can feel the sea breeze along the scenic route.

Yokosuka is an International port city where Japanese and American culture blends together.  
Viewing rich nature such as Koamidai Forest, Oogusu Mountain (known as hiking course) and Tateishi Coast.

Hayama facing Sagami Bay, overlooking Enoshima and Mt. Fuji, known and chosen as one of the hundred shore.  
The magnificent coastline and mountains lush with greenery entertains our eyes season by season.

During the month of December, you will witness the most breathtaking beauty of Mt. Fuji  
which appears in your sight under the crystal clear air.

So why not drive along Route134 coastline with your classic car under the glittering sun.
