The Mercedes-AMG CLE 63 Is Coming With 646 Horsepower: Report

"Uncompromising AMG." That's how Mercedes described its new high-performance coupe when it released teaser images earlier this year. Few details were shared, except that the tall-happy prototype was based on the CLE and that the production model would be part of the ultra-exclusive "Mythos" series. While we wait for the...

Mercedes-AMG Teases 'The Most Extreme Black Series Ever'

Mercedes-AMG has finally revealed the identity of its Track Sport prototype, which it has been teasing for a few months. As we suspected when the first photos surfaced, it's effectively a two-in-one supercar. It previews not only a new GT3 racing machine but also a street-legal Black Series model developed...

The 2026 Aston Martin DBX S Is Borderline Absurd: Review

Five days before I was set to drive Aston Martin's 717-horsepower DBX S SUV, a blizzard buried the East Coast in a foot of snow and ice. Arctic temperatures followed, and the resultant icy mixture coating roads and sidewalks looked like a late-night milkshake half-eaten and forgotten about in the...

More Households Are Spending More on Subscriptions This Year

Checking your bank statement lately might feel like watching a slow leak that you cannot quite plug. Those small monthly charges for streaming services, cloud storage, and niche apps seem harmless in isolation until you actually add them up. You probably feel a sense of guilt for forgetting to cancel...

Ukraine races to counter Russia's jet-powered drone attacks

This summer, Ukraine confronts the pressing challenge of countering Russia's rapidly deployed jet drones, which have become a significant threat. Recent tests highlighted the difficulties in controlling many new interceptor drones. With Russia ramping up the production of these advanced weapons, Kyiv is now focusing on developing cost-effective, mass-produced alternatives....
