A handwritten signature in blue ink, appearing to read "Paolo Grieco".

As agreed, I am sending you all the documents we were able to retrieve about the 0498 750 Monza. I really hope this will be enough.

I am terribly sorry that I could not find the folder you sent us. All the documents have always followed the car also in the occasion of the interventions on the original chassis.

Probably, the operations have not been followed as they should have had because of the role changes at the Classiche department.

I remain at your disposal.

Best regards,
