

the top ten

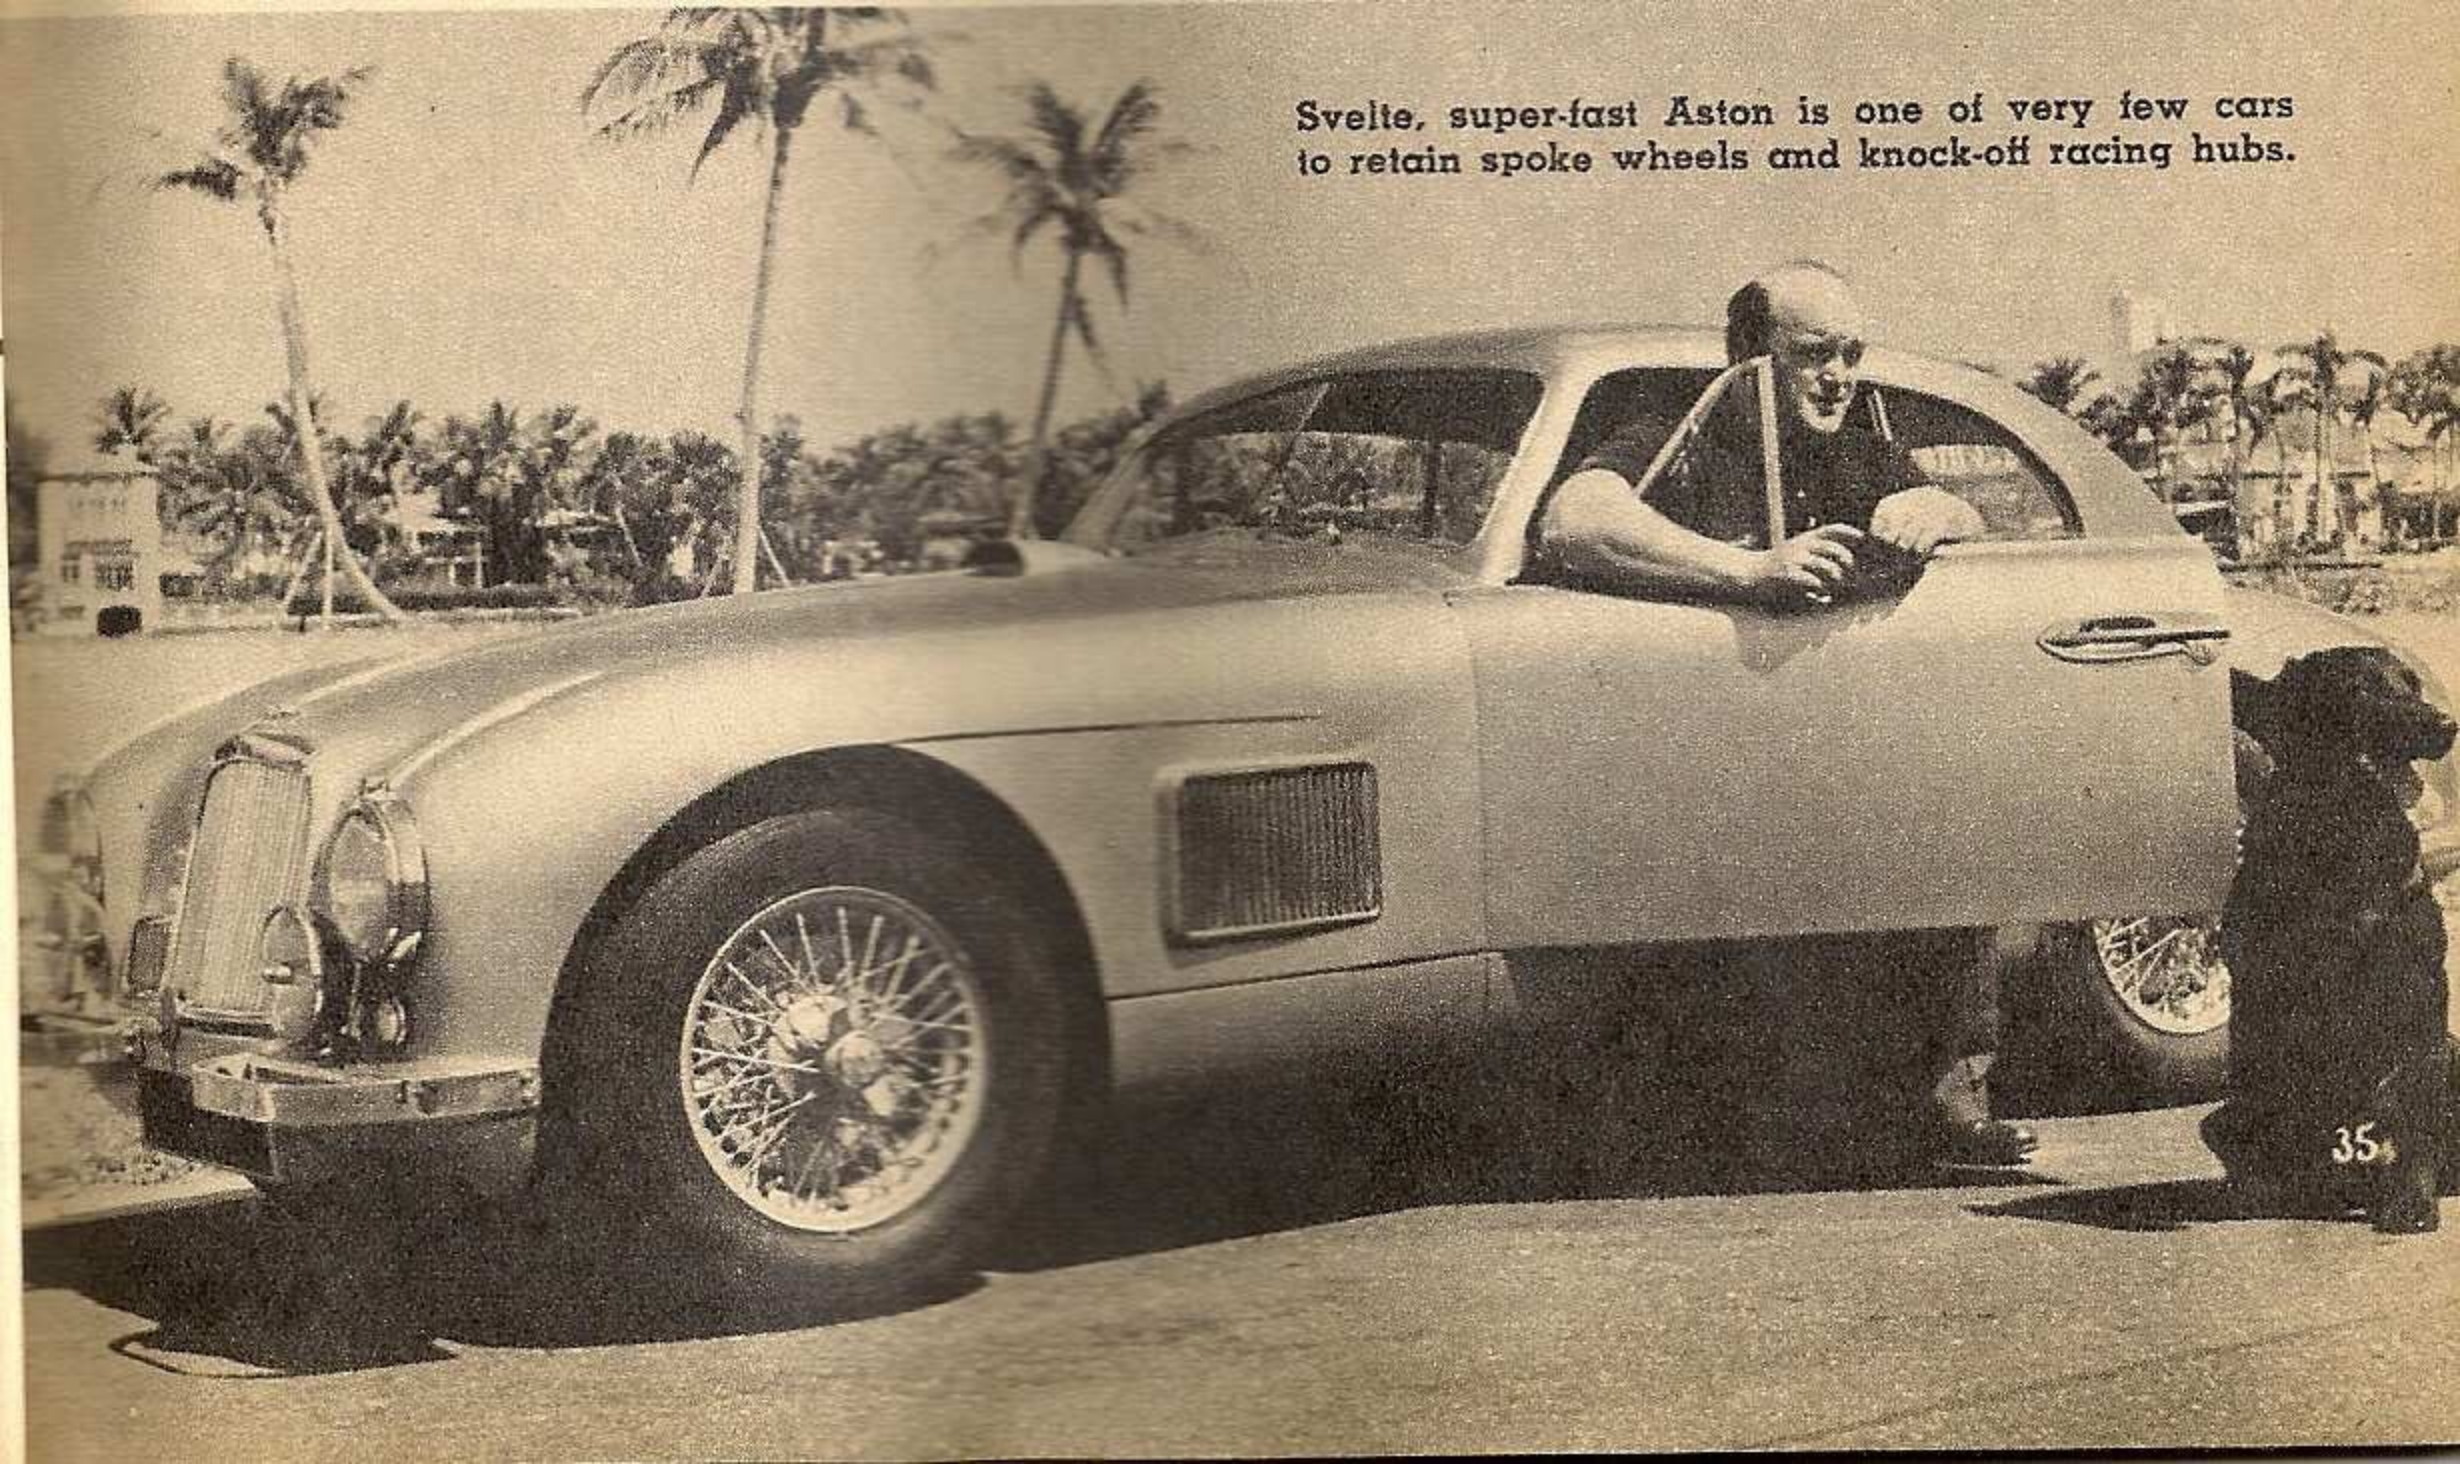

Clean, sporty lines of the flashing Aston-Martin are apparent in these front, side views. McCahill finds it exceptionally comfortable and fairly easy riding.

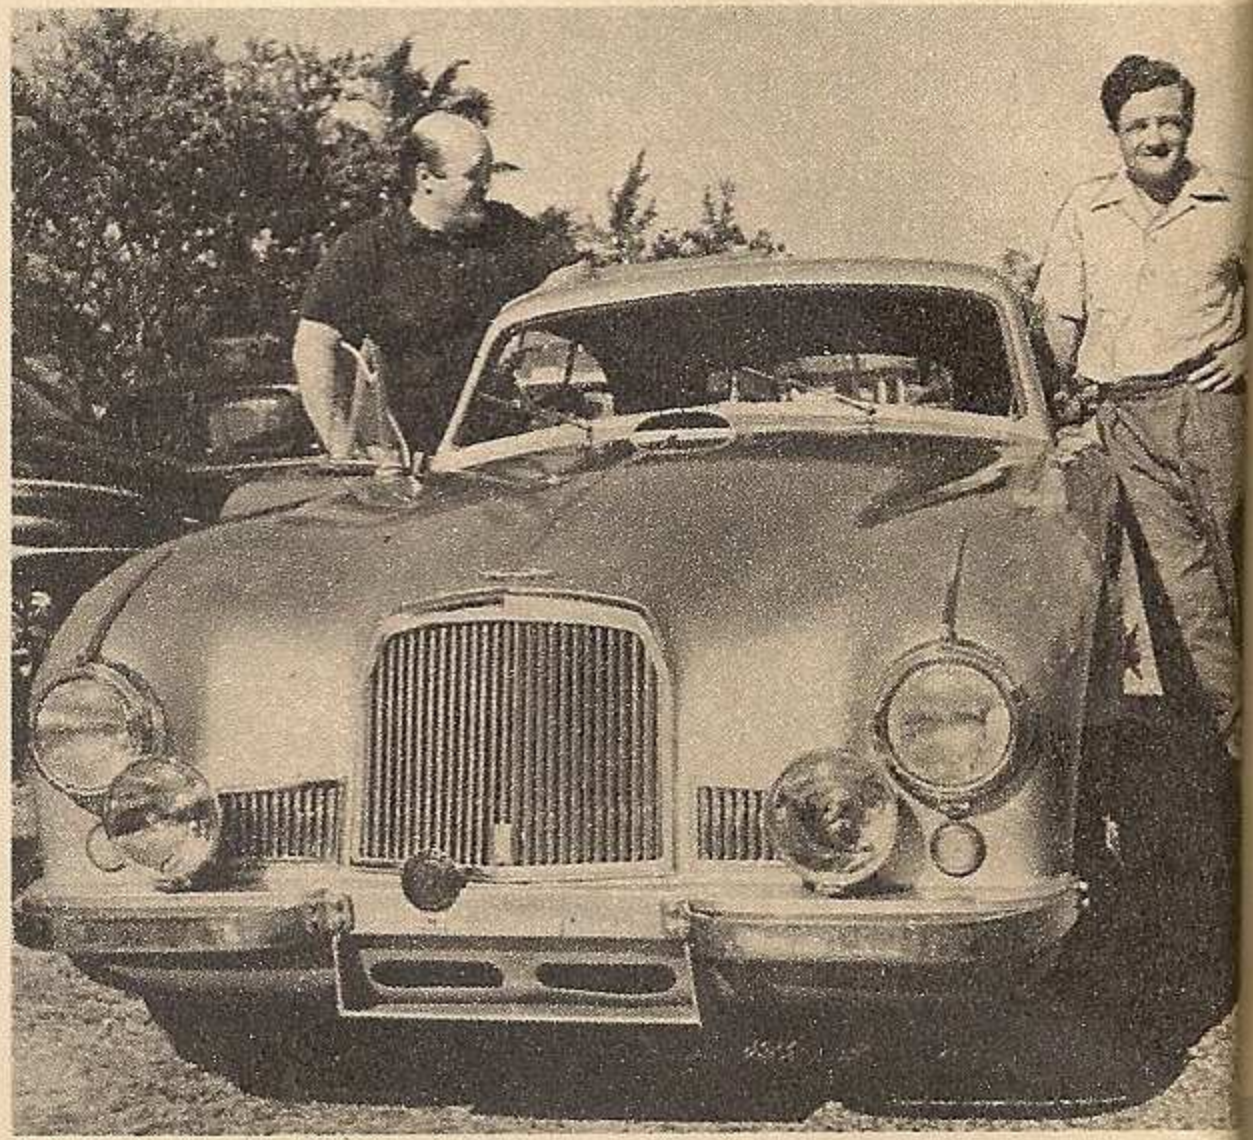

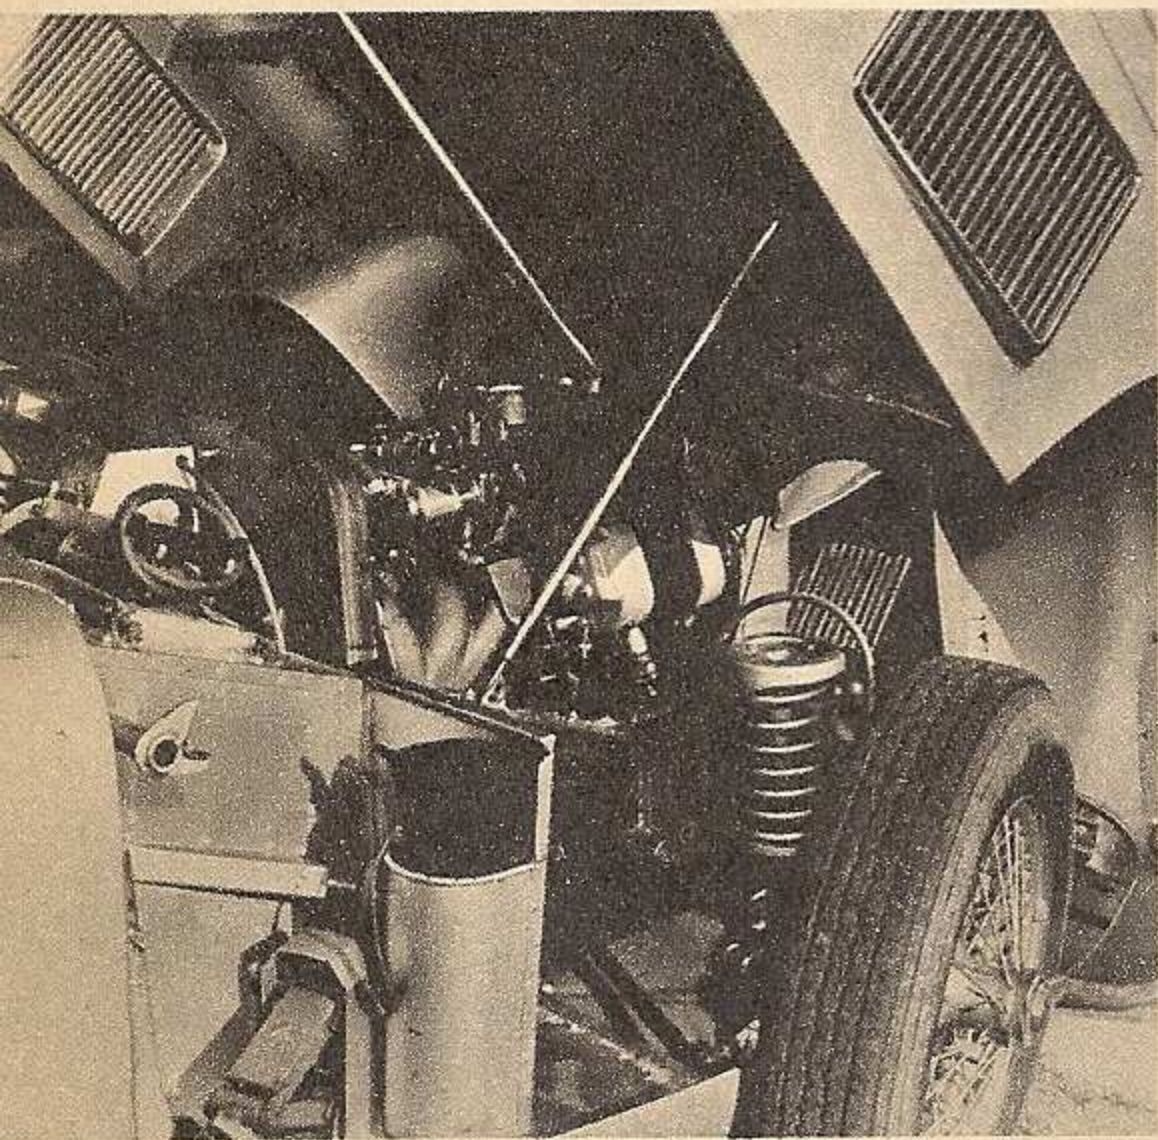

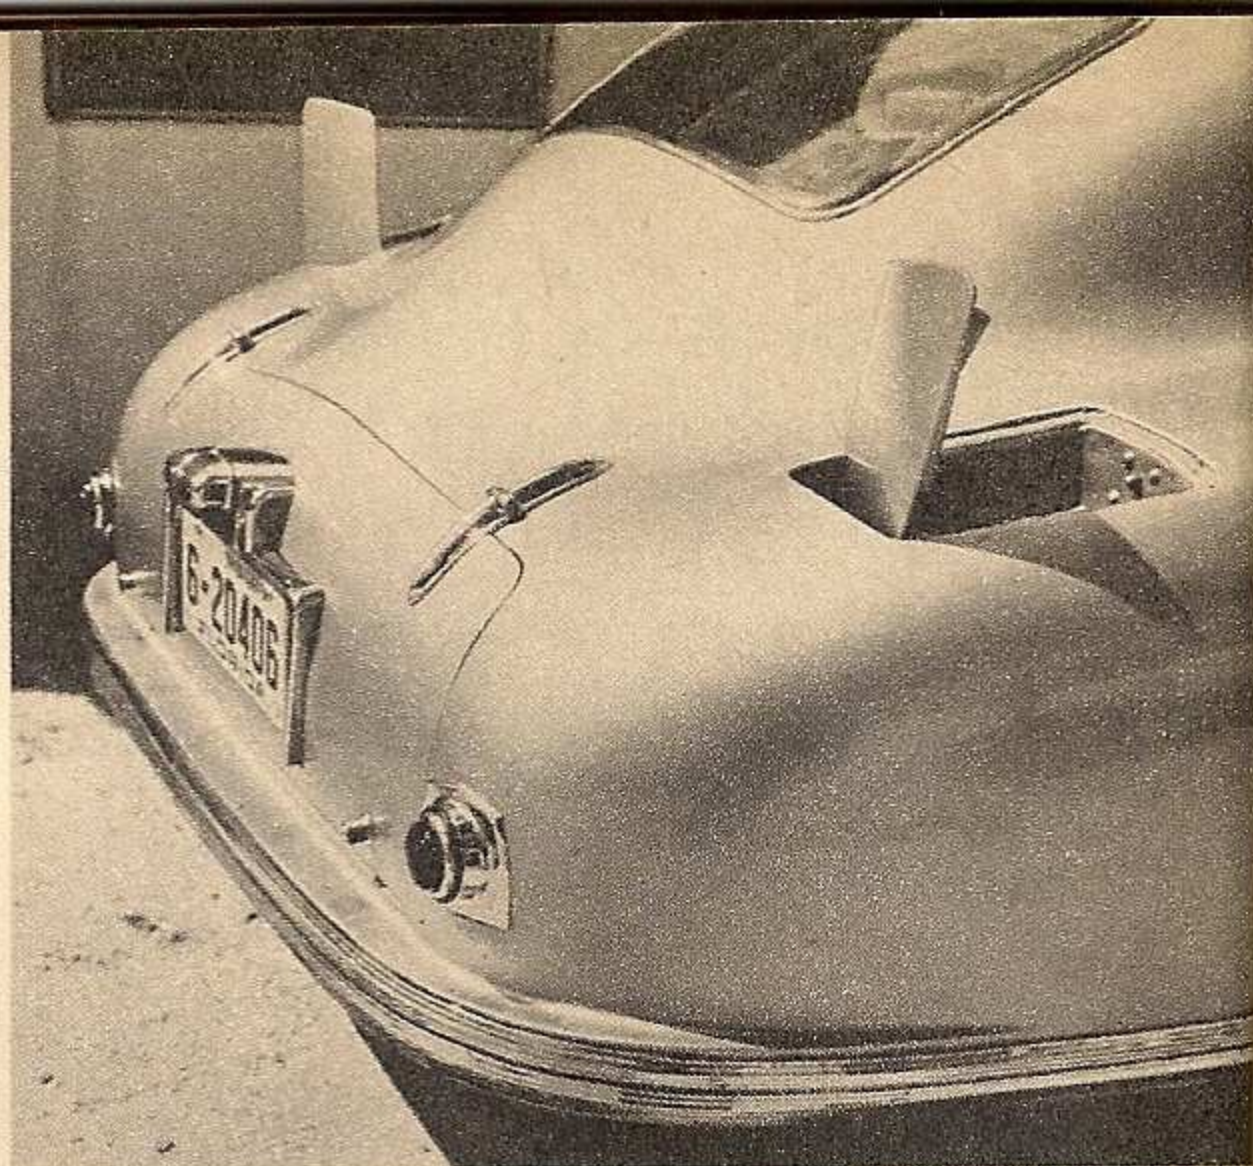

The Aston-Martin

Quality styling and workmanship are blended with 122-mph performance in the superb Aston-Martin.

Svelte, super-fast Aston is one of very few cars to retain spoke wheels and knock-off racing hubs.

Six-cylinder engine has dual carburetors, double overhead camshaft, is superbly engineered. Hood over the engine, bottom, swings forward in one unit. Note handy tool carrier, center foreground.

Two gasoline tanks, top, are an unusual feature. Filler lids can be opened only from inside car. Below, Tom grins at Briggs Cunningham, America's foremost sports car backer and racing enthusiast.
