Nearly all data I have on CD

Vienna, 5th of January 2013

Dear Carlo!

Referring to your e-mail from 31st of December 2012 you will find in the attachment a CD with nearly all my data on the Fulvia HF. These data are the base for my three books

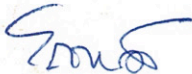

- Photographs in books, magazines and newspapers listed with sources in the Excel HFFulvia_CS. They can you can find again because they are all on paper.
- Photographs from Internet (www.forum-auto.com , <http://rallymania.forumfree.it/> and from friends in Germany, France and Italy. Most of them without source. There is no security for finding them tomorrow again
- Reports – clippings/scanns from Internet, magazines and books
- Results – clippings/scanns from Internet, magazines and books.

It's the result of about 12 years looking for Fulvia everywhere. I think I'm now at the end of my road, only you and Gianni Tonti can add more and better information.

Thomas Popper from Geneva has very interesting material from the mechanics of the Reparto Corse and inside of Lancia, but without description. He asked me to identify most of his pictures.

I thank you once more for your help since 2006 (you signed your Zagato-book in Padova 2002 for me). If you have further questions please let me know I will try to help - if possible.

With best regards

Ernst
