

28, Durham Rd.,
Sidcup,
Kent.

16th July 1962.

Dear Sir,

Two years ago I purchased a 1935 Fiat Balilla car and am at the moment engaged in renovating it to a large extent. As there does not seem to be much in the way of information on this car I wondered if you would be kind enough to help me on one or two points. You did actually see this car on the grounds of Beaulieu just after I had bought it from a dealer in Bournemouth.

I would like to know the sump, gearbox and lock axle capacities and also the recommended lubricants. Could you tell me something of the electrical system especially the wiring of the cutout and dynamo as I shall have to completely rewire the car.

If you can furnish me with the information requested I shall be

most grateful to you as the car
is in a rather sad state and I
would like to get it roadworthy again.

Yours faithfully

K. McKenzie.
